

Parks in the Conference

We are very happy to presenting a few parks. More than twenty-five countries will be represented. Everyone with a unique story about difficulties and positive outcomes. Learn more by reading below.

We are targeting parks all over the world. To create a network of urban parks that will spread knowledge between each other and strengthen the relationship between parks so that we can become stronger!

Medellin, Colombia

Medellin River Parks

The Medellin River Parks project becomes a possibility to restore the river and bring it back to the city and its inhabitants. What at first was defined as a road project today is a comprehensive project that seeks to provide an efficient

Wirral, England

Birkenhead Park

Birkenhead Park was the first publically-funded park in the world, laid out by Joseph Paxton, the leading horticulturalist and

and sustainable response to environmental issues, as well as issues of mobility (motorized and non-motorized), and public space in the city.

landscape gardener of the time. The design incorporates a concept of urban life in which freely available facilities for every member of the urban community is the driving force for the creation of the park – the People’s Park. The aim is to build a bridge between the park’s history and today’s social uses of the park.

Beira, Mozambique

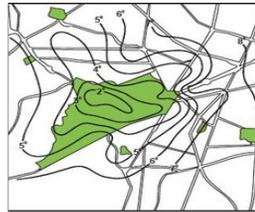

Civeve River Park

The project aims at restoring this valuable ecosystem realising its contribution to the ecology of the City and change the people’s attitude towards it from a litter conduit to a loved and well used public park.

Mexico City, Mexico

A city park in soon to be dismissed airport lands

The dismissal of the current Mexico City Airport, scheduled to move to a larger area nearby, is a not to be missed opportunity to keep the space free from built-up and full instead of functioning landscape elements.

More parks coming soon, keep visiting us!
